

AI-powered, Asia-focused, Data & News Platform for Business Leaders

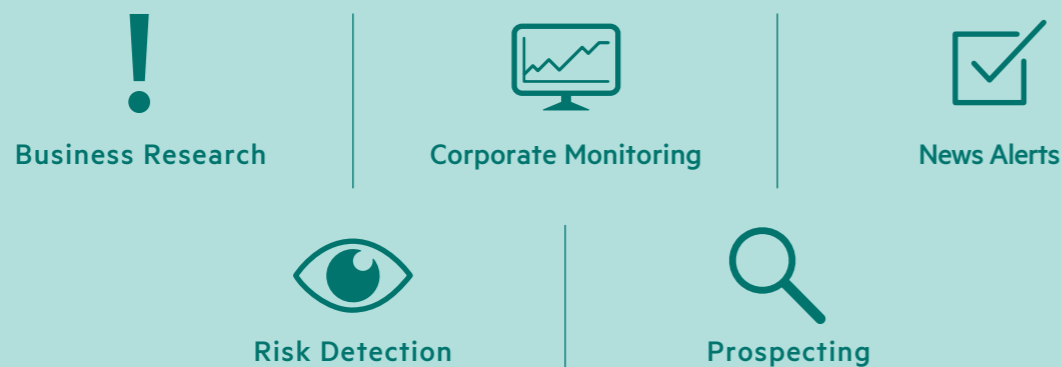

scoutAsia is jointly developed by Nikkei & the Financial Times with the ultimate aim of enabling customers towards **better and more informed decisions**.

Combining quality content and technologies, scoutAsia provides AI-driven insights on **what is changing in Asian business** today.

NIKKEI
scoutAsia

We accelerate your productivity in research & monitoring

Our Coverage

4.5 million+ companies

2-5K articles / day

26 countries & regions in Asia-Pacific

The Only English platform that offers AI-translation of The Nikkei

Advanced Search & Customised Alerts

scoutAsia performs 24/7 monitoring on thousands of articles across Asia and capture what's new on your watchlist.

1

Saved Searches & Targets

Create your own set of news updates by specifying your search parameters such as industries, companies, regions, sources or any form of combinations.

2

Customisable AI Features

Our scout AI helps you follow the topics of your interest more effortlessly. The web app subscription comes with 40+ pre-trained Standard AI topics and opportunities to customise & create your own.

3

Company Search

Our clients use scoutAsia for preliminary research on their future investment, potential customers, partners or competitors. At a company page, you'll be able to find corporate profile, structure (connections), financials, news mentions, and related news all in one place.

Onsite & Email Alerts

Find out what's new on companies and topics on your watchlist every morning in your mailbox.

On the web app, you have an at-a-glance view of the latest updates & trending topics.

Trusted Sources & Partners

From international/national newspapers, exchange filings, sector reports to specialist publications, scoutAsia gives you a consolidated subscription to the various content in one convenient platform.
