

Introducing scoutAsia

A joint venture by Nikkei & FT

ScoutAsia is an Asia-focused news & company data platform, jointly developed by Nikkei and the Financial Times in 2018, with the ultimate aim of making Asia more accessible to foreign businesses.

Combining quality content and technology, scoutAsia provides AI-driven insights on what is changing in Asian businesses. ScoutAsia currently curates news & company data from 24 countries & regions across Asia.

Singapore-based Handshakes by DC Frontiers came on board in 2019 to power the platform with its award-winning AI and data analytics technologies.

As of today, scoutAsia is the only English-language platform that provides English machine translation of Nikkei Content.

Region-wide Coverage in Asia

26
COUNTRIES & REGIONS

4,265,322
COMPANIES

5,900,583
NEWS

149,977
REPORTS & FILINGS

Sources

Trusted Sources & Partners

From international/national newspapers, exchange filings, sector reports to specialist publications, scoutAsia gives you a consolidated subscription to the various content in one convenient platform.

With our premium feature, Connections+, you can get access to all corporate registry data of Singapore, Malaysia, Vietnam and China for in-depth research on companies & people. This feature is powered by Handshakes.

Use Case

Sector/Company Monitoring

ScoutAsia performs 24/7 monitoring on thousands of articles across Asia daily to capture what's new on your watchlist.

From management reshuffle, corporate mergers, financial findings to political movements and regulatory actions, scoutAsia read and analyse sources and deliver information that matters to you on the app and via email alerts.

The screenshot displays the ScoutAsia app interface. At the top, the logo 'scoutAsia' is visible. Below it, the heading 'Latest news from my Scout AI' is shown. The main content is divided into two sections: 'Mergers & Acquisitions (75)' and 'Latest news from my Target List'. The 'Mergers & Acquisitions' section contains two news items. The first item is from Reuters News, titled 'Canada's Sun Life to acquire majority stake in AAM for \$214 mln', with a '1 SCOUT AI TAG' of 'Mergers & Acquisitions' and 'NO COMPANIES MENTIONED'. The second item is also from Reuters News, titled 'BRIEF-Builders FirstSource Closes Acquisition Of Trussway', with the same '1 SCOUT AI TAG' and 'NO COMPANIES MENTIONED'. The 'Latest news from my Target List' section contains two items. The first is from The Straits Times, titled 'askST: What is a digital bank and how do their offerings differentiate them from traditional ones?', with 'NO SCOUT AI' and '8 COMPANIES MENTIONED' (DBS GROUP HOLDINGS LTD. and VIVOCITY PTE LTD.). The second is from CNA Channel News Asia, titled 'Singapore's Sea cuts some Garena unit jobs, shuts projects, sources say', with '1 SCOUT AI TAG' of 'Layoffs' and '1 COMPANY MENTIONED' (SEA LTD. (SINGAPORE)).

AI Topics Specialised in Monitoring News & Updates

Let machines read tons of news articles and pick up the right content for you.

ScoutAsia's AI feature **scout AI** helps you follow the topics of your interest more effortlessly.

The web app subscription comes with 50+ pre-trained Standard AI topics and opportunities to customise & create your own.

The Standard AI topics include:

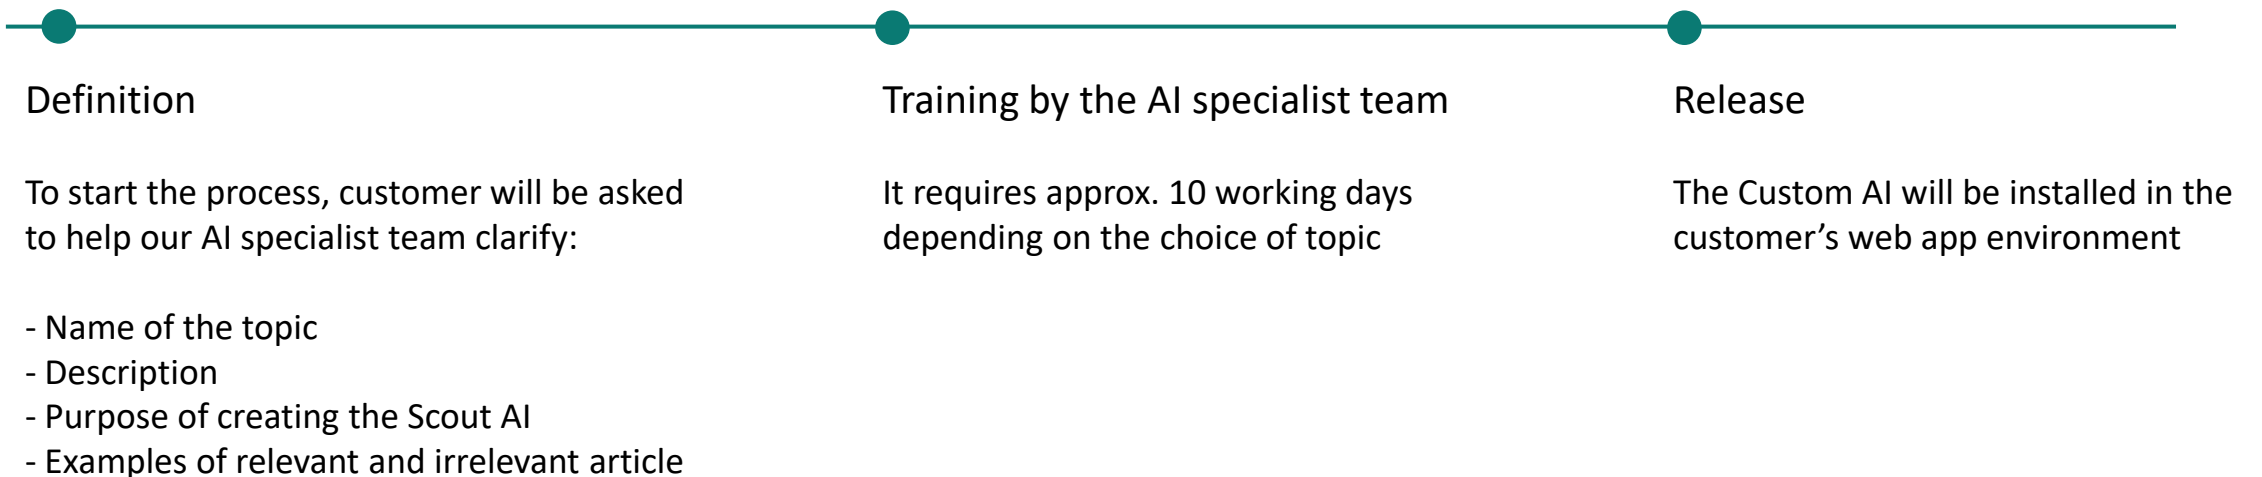

- Covid 19 related topics (Vaccines, Treatment, Testing)
- Markets (Stocks, Currencies, Interest Rates)
- Macro Economy (Monetary Policy, Economy)
- **International Relations** (International relations, Trade talks)
- **ESG** (Human rights, Labour rights & employee welfare, ESG investing, Climate Changes)
- **Current matters** (Electric Vehicles, Supply Shortage, Cybersecurity, Blockchain)
- Business Trends (Business expansion, Digitalisation, Upsizing & Layoffs)
- Financials (Earnings Upgrade/Downgrade, Financial Distress)
- Corporate Events (Management changes, Mergers & Acquisitions, IPOs)

and more..

How to create Custom AI Topics

Apart from the pre-trained Scout AI topics within the subscription package, users can customise their Scout AI according to their requirements.

By implementing AI assistance, your AI topics will be able to pick up context of the article instead of limiting search results to keywords mentioned, leading to higher precision in search results.

AI monitoring & instant summaries - Radar

Our latest feature Radar surfaces signals and insights on topics from non-traditional angles.

With Radar, you can combine multiple search feeds and your target companies to discover emerging topics and related industry players.

Our customers use Radar to:

- Identify a company's strategic business area and how it is publicly perceived through news
- Monitor emerging businesses and topics which are hard-to-classify by existing frameworks
- Discover peers, competitors, and potential customers related to your industry

The screenshot displays the Radar interface for 'Agriculture - Thailand'. The main heading is 'Agriculture - Thailand' with a plus icon. Below it, a subtitle reads 'Monitoring news on agriculture, food supply and exports in Thailand'. There are two tabs: 'News' (active) and 'Companies'. The main content area is titled 'ALL NEWS' and shows 'Found 1,701 articles from the past one year'. Two news items are visible:

- Structural Adjustment and Stability after IMF Is it Adequate?**
Source: DAILY MIRROR, 9 HOURS AGO. Multiple search feeds. 6 companies mentioned. Auto-summarised by SCOUTASIA.
 - On his presentation on Debt Crisis, Structural Adjustment and Trade Policy, Athukorala opined that Sri Lanka, during the era of Independence had maintained an export-oriented economy with a strong welfare component.
 - With income disparities in rural and urban sectors becoming low and falling, Athukorala explains that economic policies of Sri Lanka gradually became more focused on keeping up with welfare.
 - Even though reports denote that the debt burden of Sri Lanka was much higher in the early 90's compared to the present, the current situation is way more destructive as the external debt relative to the Gross Domestic Production (GDP) of the country is weighed out by non-tradable goods, which Athukorala points out "does not help us pay any debts".
- Malaysian delegation from food, healthcare, IT industries to visit Philippines**
Source: BUSINESSWORLD, 12 HOURS AGO. Food supply. 2 SCOUT AI, 1 company mentioned. Auto-summarised by SCOUTASIA.
 - The event is organized by MATRADE, the Malaysian Ministry of Entrepreneur Development and Cooperatives, and SME Bank Malaysia.
 - MATRADE Trade Commissioner in Manila Intan Zalani said that the mission will help Malaysian firms establish a presence in the Philippine market and "expand key business relationships." "With a young and fast-growing population, the Philippines offers valuable prospects for Malaysian-made products and services that are synonymous with quality and compliance with international standards," Ms. Zalani said.

On the right side, there is a 'Most Mentioned Companies' section titled 'TOP 100 OF 6224 COMPANIES FOUND'. The list includes:

- BANK OF THAILAND: 75
- Nikkei Inc.: 67
- Charoen Pokphand Foods Public Co. ...: 60
- Ministry of Finance: 59
- CEIC HOLDINGS LIMITED: 54

At the bottom right, it says 'Last updated 17 Aug 2022, 12:08 (GMT +09:00)'.

Annual Subscription Plans & Add-ons

JPX Kiyota CEO 'Market safety is the most important', apologized at the national securities competi...

THE NEWS | 5 OCT 2020

Japanese | Auto translated to English

Akira Kiyota, CEO of Japan Exchange Group (JPX,6977), attended the National Securities Convention held on 5th, it apologized as 'It caused a great deal of trouble to investors and market participants' for the fact that a system failure occurred at the Tokyo Stock Exchange on 1st and trading of stocks was suspended all day. After that, it was named 'Market safety is paramount and first and foremost' and emphasized that it will strive for safe and secure market management. The person explained ...
