The screenshot shows the 'Create Radar' configuration page in the ScoutAsia interface. It includes sections for 'Company List', 'News Filter', and 'Company Filter', each with a 'SYNC' button. A 'Radar Settings' section is also visible, showing management options for the radar. The interface is clean and modern, with a dark green header and a white main area.

The screenshot displays a 'US-China Trade' radar. The top section shows the radar's focus on international trade. Below this, there are tabs for 'News Feed' and 'Company Feed'. The 'ALL NEWS' section shows a list of articles, with the first article titled 'Buy for 2050 at 300 times the price', Components tightness to hit Kyushu semiconductors'. The 'Most Mentioned Companies' section lists companies like Hafele Engineering & Trading Strength, Geology And Mineral Resources Group, Hyundai Motor Co Ltd, and Hallang Group Co., Ltd. The interface is designed for easy navigation and information discovery.

The screenshot shows a 'Supply Chain Disruptions & Shortages' radar. It features a 'Recent Mentions - List: 5/100' section with a 'VIEW COMPANY NEWS' button. Below this, there are sections for 'Recent Mentions - Filter: 10/500' and 'News Highlights'. The 'Latest News' section includes articles like 'Renewable Energy Power, Uncontrolled Weather Hurts, An Obstacle to Decarbonization'. The interface is designed to provide a comprehensive overview of supply chain issues and related news.

News Feeds focused on different perspectives

Each feed allows me to focus on an angle and identify overlaps.

For example, an article could be picked up by both Product Development (News Filter) and my curated Company List.

The screenshot shows three news feeds from the Radar interface:

- Startups, Fundraising, IPOs (Tech Sector in China)**: Found 162 articles from the past year. Filtered to 'All (20)'. Article: "Chinese tech veterans jump into AI start-ups".
- Product Development in Tech Sector, China**: Found 518 articles from the past year. Filtered to 'All (20)'. Article: "Generative AI Excluding Operational Efficiency".
- Politics in Tech Sector, China**: Found 134 articles from the past year. Filtered to 'All (20)'. Article: "TikTok CEO Tries to Ease Critics' Security Concerns".

A callout box highlights an article titled "Generative AI Excluding Operational Efficiency" which is present in both the Product Development and Politics feeds. The callout also lists "Product Development in Tech Sector, China" and "COMPANY LIST" as filters applied to this article.

I get the latest news mentioning the Start-Up Companies
Looks like there is a lot of financial news generated and
Endowus is getting the most number of mentions

The screenshot shows the 'Start Ups' news feed interface. At the top, it says 'Synced to 1 Company List, 0 News Filters, 0 Company Filters'. Below this, there are tabs for 'News Feed' and 'Company Feed'. A section titled 'COMPANY LIST : start up watch list' shows 'View 250 articles from the past one year, mentioning companies matching your Company Filter'. A filter bar includes 'All (20)', 'News (5)', 'Report (0)', and 'Exchange Filing (5)'. The main feed shows two articles. The first is 'UOB-KAY HIAN HOLDINGS LIMITED: General Announcement' from SGX, dated yesterday. The second article, highlighted with a red dashed box, is 'Endowus Launches Hong Kong Digital Wealth Services' from FINews.Asia, dated yesterday. This article includes a summary and three bullet points: 1) According to Endowus, the industry norm of trailer fees or fund distribution commissions in Hong Kong and across Asia could lead to potential misalignment of interests between investors and product distributors as the latter may be incentivized to offer funds that pay higher commissions over products that are more suitable for the investor. 2) To this end, Endowus said it is introducing «Hong Kong's first fee-only, non-commission-based digital wealth management platform» which does not receive any sales commissions and provides 100 percent cashback on trailer fees to clients. 3) «The industry practice of paying trailer fees to distributors, like banks and brokers, goes against the ethos of offering products based on the needs of clients and improving long-term returns for investors.» said Endowus co-founder, chairman and chief investment officer Samuel Rhee.

Leads & Insights

These Start Up Companies have media mentions with other Companies outside of its sector.
These are leads I can start with.
