## Russian crude oil price ceiling, Sakhalin 2 excluded, Minister of Economy, Trade and Industry stated

THE NIKKEI | 25 Nov 2022 | [View original article](#)  1

Sector: Oil & Gas

Japanese  Auto-translated to English

At a press conference following the 25th Cabinet meeting, the person said, Regarding measures to cap the price of Russian crude oil and restrict imports, Minister of Economy, Trade and Industry Yasutoshi Nishimura said that the Group of Seven (G7) major economies are expected to exempt crude oil produced by the Russian resource development project "Sakhalin 2," in which Japanese companies are participating. The G7 is coordinating to implement the ceiling price starting December 5. Yasutoshi Nishimura said in addition to Japan, "The US and Europe also recognize that Sakhalin II is exempt." Sakhalin 2 also produces crude oil in the process of producing natural gas. Japan had asked the G7 countries for an exemption, as it believed that the inability to export this crude oil would hinder the stable production of natural gas. Liquefied natural gas (LNG) transported from Sakhalin 2 represents a little under 10% of Japan's LNG imports. The Ministry of Economy, Trade and Industry is concerned that the inability to import LNG from Sakhalin 2 this winter will make it difficult to ensure a stable supply of electricity and gas. After a series of measures are introduced, imports of Russian crude oil purchased at prices above the ceiling will no longer be allowed. Yasutoshi Nishimura also recognized that it would apply to resource development projects "Sakhalin 1" in which the Ministry of Economy, Trade and Industry or Japanese companies participate.

# Building a Good Search: Using Boolean Operators

Use a combination of Boolean Operators within your keywords to narrow down your results.

## Basic Operators

Boolean Operators	Boolean Symbol	Examples	Expected Results
<b>No Boolean (AND)</b> Adding spaces between words or between exact phrases		Singapore Airlines	Articles with both words <b>Singapore</b> and <b>Airlines</b> mentioned.
<b>Exact Phrase</b> Use quote marks (not “curly quotes”) for exact phrases	" "	"Singapore Airlines"	Articles that contain the exact phrase " <b>Singapore Airlines</b> ".
<b>NOT</b> To exclude particular words from a search, put a minus sign before the word.	-	Singapore -Airlines	Articles that contain the word <b>Singapore</b> , but do not have the word <b>Airlines</b> .
<b>OR</b> (vertical pipe character) To search for articles with any words mentioned, use the vertical bar to separate them.		Singapore   Airlines   Changi   Airport	Articles that contain any of the words <b>Singapore</b> or <b>Airlines</b> or <b>Changi</b> or <b>Airport</b> , but not necessarily all of them.

Note that multiple Boolean operators can be combined in your search — see the next page for examples.

# Building a Good Search: Using Boolean Operators

Use a combination of Boolean Operators within your keywords to narrow down your results.

## Combining Operators

Approach	Boolean Symbol	Examples	Expected Results
<b>AND for Exact Phrases</b> Used to search for exact phrases among articles	"phrase one" "phrase two"	"Singapore Airlines" "Changi Airport"	Articles that mention the exact phrases <b>Singapore Airlines</b> and <b>Changi Airport</b> in the title or body. <small>*Note: This is different from searching <b>Singapore Airlines Changi Airport</b>, as that searches for individual words only</small>
<b>BRACKETS with OR</b> To group keywords and use Boolean operators among groups	( )	Singapore (Changi   Airport)	Articles that contain the words <b>Singapore</b> and <b>Changi</b> , or <b>Singapore</b> and <b>Airport</b> .
<b>BRACKETS with OR and Exact Phrases</b> To expand the example above to include an exact phrase	( )	Singapore (Tourism   "Changi Airport")	Articles that contain either the words <b>Singapore</b> and <b>Tourism</b> , or the words <b>Singapore</b> and <b>"Changi Airport"</b> .

- All articles in ScoutAsia are tagged according to AI models.
- These AI models understand the meaning and interpretation of words, signs, and sentence structure.
- We also have our own customisations on training and article-classifying design to achieve better performance at scale.
- During the training process, ScoutAsia Machine Learning Experts labels a set of articles either as 'Positive', 'Negative', or 'Neutral' to indicate how relevant the text is to the topic being trained. The machine then learns patterns and structures of the text and tries to classify articles it has not seen before.

# Definitions

# Definitions: Company Financial Data

Term	Definition
<b>Revenue</b>	Turnover, Net Sales or total Operating Revenue for each company according to their industry type as disclosed in their Income/Profit & Loss statement in their Annual Filing. Where Annual Filing is not available we will use a Local Registry submission.
<b>Profit Before Tax</b>	Profit (or Loss) Before Tax reflects the absolute value of a company's profit margin. Where we don't receive this value directly we calculate it from the company's profit margin expressed as a percentage of Revenue. Where a company has recorded a loss, this number will be negative.
<b>Market Cap</b>	Market Capitalisation is an expression of the company's value at a particular time. For public companies this is calculated from the number of shares outstanding and their market price. Within scoutAsia, we use the primary listing value in local currency and convert this to USD for comparative search purposes.
<b>Total Assets</b>	<p>Where available, we show the Balance Sheet value disclosed by each company as part of the Local Registry Filing. This value should encompass each company's current assets, long-term assets and intangible assets.</p> <p>For publicly traded companies, this represents the total value of resources the company uses for its operations. Most of these assets can be liquidated and used to cover obligations, therefore this value is equivalent to the company's liabilities and total equity. Each industry type has variations in which resources they will apply within their asset calculation and that are compliant with their applicable accounting standards.</p>
<b>Shareholders' Funds</b>	Where available, we show the disclosed value of all existing share financing, reserves and retained profits, drawn from each company's Local Registry or Annual Filing as appropriate. This is equivalent to a company's net worth, in other words all assets minus all liabilities.

Using the Time Toggle, I can monitor companies in my Radar based on the Last 5 Days of news

The “Mentioned Together” Widget allows me to discover smaller players in the F&B industry that are mentioned with bigger companies but are not significant enough to have a stand-alone news mention.

For Example, let’s zoom into “Olam Agri Holdings Pte Ltd”

- Checking the company profile, this is a Singapore-registered company in the business of wholesale agricultural products.
- It was acquired by Saudi Agricultural & Livestock Investment Co. from Olam Group Ltd. on December 23, 2022 for \$913.44 million

**Endowus Launches Hong Kong Digital Wealth Services**

1 SCOUT AI | 3 COMPANIES MENTIONED | AUTO-SUMMARISED BY SCOUTASIA

- According to Endowus, the industry norm of trailer fees or fund distribution commissions in Hong Kong and across Asia could lead to potential misalignment of interests between investors and product distributors as the latter may be incentivized to offer funds that pay higher commissions over products that are more suitable for the investor.
- To this end, Endowus said it is introducing «Hong Kong's first fee-only, non-commission-based digital wealth management platform» which does not receive any sales commissions and provides 100 percent cashback on trailer fees to clients.
- «The industry practice of paying trailer fees to distributors, like banks and brokers, goes against the ethos of offering products based on the needs of clients and improving long-term returns for investors.» said Endowus co-founder, chairman and chief investment officer Samuel Rhee .
